**RE: REACH +SCIP Declaration**

ESP International continuously strives to provide safe, reliable, and high-quality products to our customers. We have reviewed **Regulation (EC) No. 1907/2006** concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (**REACH**), including the **Substances of Very High Concern (SVHC) Candidate List updated on 4 February 2026**.

To the best of ESP International's knowledge and based on information provided by our extended supply chain, **the articles supplied by ESP International do not contain any SVHCs present on the current Candidate List in a concentration greater than 0.1% (w/w) at the article level**, as defined under **REACH Article 33**.

This declaration reflects the **current SVHC Candidate List comprising 253 substances**. If any supplied article contains an SVHC above the 0.1% (w/w) threshold, ESP International will fulfill all applicable obligations under REACH, including **communication requirements pursuant to Article 33** and **notification obligations under Article 7(2)**, where applicable.

In accordance with the **EU Waste Framework Directive (Directive 2008/98/EC, as amended)**, ESP International further confirms that **SCIP notifications will be submitted to the European Chemicals Agency (ECHA)** for any applicable articles containing SVHCs above 0.1% (w/w), before placing such articles on the EU market.

Since conditions of use are outside ESP International's control, ESP International makes no warranties, expressed or implied, and assumes no liability related to the use of this information.

The conformity of special articles, products manufactured from special compounds, or customer-specific designs may be evaluated on a case-by-case basis and is not covered by this general declaration.

Sincerely,

Zach McCauley

Customer Experience Manager
